**Sprint Waste Services Ranks No. 63 on HBJ's Fast 100 List**

*Recognition Marks Fourth Consecutive Award*

HOUSTON (Sept. 18, 2015) —Sprint Waste Services, a leading industrial waste services provider, announced today the *Houston Business Journal* (HBJ) ranked the company 63rd on its annual Fast 100 list. Sprint Waste first appeared on the Fast 100 in 2012 and has earned a spot on the distinguished list each year since.

The newspaper published rankings and honored the companies at an awards ceremony yesterday at the Hilton Americas Hotel. Sprint Waste Services Corporate Sales Manager Steve Cannon accepted the award on the company's behalf.

Will Swinbank, Sprint Waste's president and co-owner, pointed to the company's hard-working team as a source of continued success. "Fast 100 businesses are considered some of the best and brightest in the Houston area, and we are honored to once again be named in the company of these impressive organizations," he said. "We've always believed if we work long and hard at helping our customers succeed, our success would naturally follow. This award is a testament to the incredible talent and dedication our employees, our customers and our partners bring to work each and every day."

Sprint Waste grew by 84.24%, fueled by a renewed focus on industrial services and key industry segments like construction, petrochemical plants, upstream oil and gas, and refineries. The company's growth plans include the addition of 50 drivers, mechanics and administrative personnel to support operations along the Gulf Coast, Swinbank said.

The Fast 100 awards honor and celebrate the Houston area's fastest-growing businesses based on two-year revenue growth. To qualify, companies must have headquarters in the greater Houston area, be for profit and privately held, closed five years of business by the end of 2014, and earned at least \$1 million in revenue for fiscal year 2014.

**About Sprint Waste Services**

Sprint Waste Services is a premier, full-service provider of solid waste services to commercial, industrial and large manufacturing companies along the Gulf Coast. Since 2006 the company has provided waste collection, equipment rental, hauling and turnkey managed solutions across enterprises from small industrial centers and construction sites to the world's largest energy companies. Today the company's 500-plus employees at 10 locations help customers handle their entire waste stream in a cost-effective and environmentally responsible way.
